

Assignment for Wednesday, March 22

Before class, do the following:

1. Begin revising your papers in response to your reviewer's comments. You should append a written response memo addressing each reviewer suggestion to the end of your paper. If possible, it's best to copy-and-paste the suggestions into the response memo and write your response below. If you choose to not implement the reviewers suggestions, please explain why. If you did address the suggestion, then describe your changes (use page numbers!). Note that humans in general are strongly biased against and tend to automatically reject criticism. So consciously try to bias yourself toward your reviewers. Implement the suggestions unless you have a good reason not to. The final paper, with the response memo appended, is due Friday before class via eCampus. [Here](#) is a response memo that I recently wrote that you can use as an example.
2. Continue to study for Exam 2 on Wednesday, March 29. I've posted a study guide, but it is incomplete. I'll be adding items this week.
