

Extra Practice Problems on Measurement

1. Define a “measure.”
2. Define “concept” and “conceptualization.”
3. Summarize Dahl’s concept of polyarchy.
4. Describe the three levels of measurement.
5. What is a dichotomous measure?
6. What is a continuous measure?
7. What is validity? Reliability? How can we use these to evaluate measures?
8. Is the PACL measure of democracy a valid measure of Dahl’s polyarchy concept?
