Assignment for Friday, February 10

Before class, do the following:

- 1. Review the notes on Average and SD in R. Expecially make sure you understand how to use the group_by() and summarize() functions. Please use the review exercises at the end of the notes for practice.
- 2. Do Computing Assignment 4. This is graded and due on February 10 by the beginning of class. Follow the instructions on the assignment to submit using eCampus.
- 3. Read chapter 5 of FPP and do the assigned exercises (see the pdf posted near the top of the course webpage). Remember that we'll discuss the exercises in class and that the exercises are excellent preparation for the exam. Please come to class prepared to discuss.
- 4. Continue reading *Foundation*. Finish Part 5(a) (though p. 253) by Monday, February 13. Continue thinking about the relevant questions from the "Discussion Questions for *Foundation*" available on the course webpage. The book will be covered on Exam 1 on February 22.
