Assignment for Monday, January 30

Before class, do the following:

1. Do the review exercises at the end of the notes on Loading Data.
2. Do R Assignment 2. This is graded and due on January 30 at the beginning of class.
3. Read chapters 1 and 2 of Freedman, Pisani, and Purves (FPP) and do the exercises given on the course webpage. This is our first reading from the textbook. I expect you to read this carefully and I do not plan to lecture on the material. We will discuss some of the exercises in class and you should consider them excellent preparation for the exam.
4. Continue to read *Foundation* with an eye toward the discussion questions. Part 3 should be completed by February 3 and the book will be covered on Exam 1 on Febrary 22.
